

## **MEMBERSHIP APPLICATION**

### **YOUR VOICE ON LEGISLATIVE ISSUES**

The fertilizer industry and agriculture in general continues to come under heavy attack by Congress, the Georgia Legislature, governmental regulatory agencies, environmental groups and the media. Regulatory and legislative issues affect every aspect of doing business. GPFES committees address these issues at the state and national levels by developing formal responses.

We invite you to become involved in these issues. Everyone in the industry has a stake in the future of Georgia agriculture. Only through a united front can we make a difference. We need you! We need your support!

**SEND IN YOUR MEMBERSHIP NOW** - *Come grow with us through our educational programs, meetings and other activities. Make a difference!*
